TEST DATE	MICRON	S.D.	C.V.	FIBRES > 30 mic
JULY 2008	18.9	2.9	14.4	0.1

BODY WEIGHT

SEPTEMBER 2008 105 kg

COMMENTS

A young Banavie Sire with an exceptional balance of structure, length of body and depth of muscle, combined with his soft long stapled nourished bright wool.

070112 is a very good example of a modern Banavie merino, which is quick maturing, very fertile, open faced and heavy cutting, with a long stapled, bold, deep crimping bright waxy wool

JULY 2008	20.8	3.3	16.3%	

BODY WEIGHT

JULY 2007	117 kg
JULY 2008	132 kg paddock run

COMMENTS

This young sire at 15 months of age weighed a massive 117 kg from the paddock with lambs teeth. He has tremendous bone and structural balance.

"BIG TOM" has bold crimping, long stapled, bright, lustrous wool and there is plenty of KGS there to sell. 'BIG TOM' has been used extensively in AI breeding programs at Charinga, Banavie and Gowandale. Progeny are big, bold, and quick maturing.
